Rena Faith's Chorus

If I could change tomorrow
The world would know no sorrow
I'll aim straight for my goal like an arrow
Give the children a path to follow

When u read between the lines
You will realize,
if u dream u can achieve
Stand firm and just believe

3x believe. Stand firm and just believe

Pressure's verse

If I could change the world there would be no more fight,
and every individual gets equal rights.
Me free up all the innocent wah sentence for life,
and give the underprivileged a chance to shine them light,
the gun them wah ya fire me will seize them now
the homeless and the needy me will feed them now
and get rid of the envy and the greed them now
cause we have to make this world a better place some how.

Reynaldo Canton's verse

Hands down your the best ever created
keep the faith alive
don't let it be annihilated
by the lies the hating
they trying to bring u down
just let them know you're royalty
and always rock your crown just keep it
right from the front to the back we role
eyes on the prize focus keep hope
